

## Bursary Information

Bursaries are offered to students entering Years 7 to 11 whose recent school reports indicate the potential to perform very well academically, but family financial circumstances mean they would not otherwise be able to attend the School. Bursaries are open to current students and new applicants for enrolment.

**General Bursary = 25% of tuition fees**

**Rural/Boarding Bursary = 25% of tuition fees and 25% of boarding fees**

Information for Parents:

- General Bursary gives 25% off tuition fees
- Rural/Boarding Bursary gives 25% off tuition and boarding fees
- Bursaries are available to new and current students
- Both bursaries are mean tested
- Parents will need to supply a full copy of their Income Tax Returns as prepared and lodged with ATO for the previous years - Individuals, private companies and trusts. If tax returns were electronically lodged this means Tax Return would have to have been printed off prior to submitting return. If this hasn't been done, parents may use the current year and print off prior to submitting to the ATO.
- Parents will need to supply their ATO Assessment Notice (return notice from the ATO) - Individual.
- Documentation to verify income and expenditure
- An expression of interest form for a bursary may be submitted at the same time as the Enrolment Application.
- Applications for both bursaries can be provided on request at any time.
- Where a family has an existing bursary in place, their eligibility will be reviewed annually, with new application form distributed in June/July for an application for the following year.
- The School Board will consider all applications (new bursaries and renewals) in early October for the following school year.
- Notification of the outcome will be sent to applicants in November after ratification by the Board of Trustees in November of each year
